

Subscription Registration Form

By completing the attached registration form and sending it back to the nearest BIDS office, you can automatically begin receiving billions of dollars in bidding opportunities delivered to your doorstep.

BIDS subscribers are notified of tenders from sources all across Canada including the oil and gas industry (OAGI), health care organizations, educational institutions, private corporations, municipalities and provincial governments.

Thank you for choosing BIDS and may you have many successful BIDS.

Here are the subscription options:

1. BIDS Alert™, Subscription by E-Mail

Subscribers identify the product or service categories for which they wish to receive information. As BIDS receives either tenders, tender notices, tender awards, addenda, or periodic up-dates that pertain to the selected categories, that information is sent to the subscriber's e-mail address. You will need to order each official tender package as you require them. There may be a separate charge for duplication and transportation costs.

1.2 Second Email Alert Subscription - You may also have a second subscription sent to another email address for a nominal charge. This is for those that may have different departments within the same company that would be bidding on different items than the originating subscription. Different categories sent to different email addresses.

1.3 Identical Email Alert Subscription - You may also have the same email alert subscription sent to another email address for a nominal charge. This is for those that may have a few different people that work on the same tenders within the same company.

2. Magazine Subscription by E-mail

BIDS magazine is published twice a week, and contains all open bidding opportunities from all buying jurisdictions (as well as awards, addenda and periodic buyer updates). Each issue contains all opportunities posted since the last issue. You will need to order each official tender package as you require them. There may be a separate charge for duplication and transportation costs.

3. Self-Search Registration

The self-search option provides periodic updates from buyers, and the right to buy tender documents, and the right to pre-qualify for selected Oil and Gas Industry tenders. Please note that with this type of subscription it is up to the subscriber to search the BIDS website (www.bids.ca) on a daily basis for new opportunities that become available. If there is ever an opportunity of interest to your company, you need to contact BIDS to order the necessary documents

E Environmental Services	P Printing and Publishing	U Educational Services
F Natural Resources Services	R Professional, Administrative, Management Support and Program	V Transportation and Travel Services
G Health Care/Social Services		W Construction Services

Buying Jurisdictions: Policies from various private and public jurisdictions change from time to time. Below are listed some general guidelines in place as of January 2005. For specific information on any of the buyers listing their opportunities with BIDS, please see the BIDS website: www.bids.ca.

Province of New Brunswick: The Province of New Brunswick Government provides BIDS with copies of all tenders for goods and services above its normal internal thresholds (currently \$5000 for goods, and \$10,000 for services). Approximately 90% of NB provincial tenders are less than eight pages, and contain no attachments. BIDS will send notifications of tenders along with the various items being tendered to subscribers who have indicated that they would like to receive tenders in that particular category. Subscribers will have to request the official tender document and all attachments. Tenders are sent directly from the subscriber to the Province of New Brunswick address indicated on the tender form.

Province of Newfoundland and Labrador: The Province of Newfoundland and Labrador Government provides BIDS with copies of all tenders for goods and services above \$2,500. Tenders are sent directly by the subscriber to the GPA as indicated.

Province of Nova Scotia: This jurisdiction supplies BIDS with notices only. BIDS distributes the notices according to the subscription options listed. Subscribers must request the official tender documents from the buyers, and submit the completed tenders directly to the buyers.

Municipalities and Private Corporations: As municipalities and private corporations sign on with BIDS, each has terms and conditions that may vary from one another. Contact the BIDS website for specific details.

Oil and Gas Industry: BIDS is authorized under contract to distribute subscription/registration forms, pre-qualification documents, and tenders from the general and subcontractors for goods and services required by various oil and gas companies. Tender information will be sent to all BIDS-Alert subscribers who have selected the appropriate product categories for those tenders (BIDS magazine will include all categories). The industry may, at its option, restrict distribution of specific tenders to only those companies whose pre-qualifications indicated the required high level of technical expertise.

Oil and Gas Industry Categories and Sub-Categories

Group X - Oil and Gas Exploration

Opportunities

0070 Offshore Licensing Opportunities

- 0071 Offshore Exploration

0080 Onshore Exploration

Opportunities

Terms of Registration

Definitions

- 1.1 "Deposit Account" means the Subscribers deposit account with TPL established in section 2.2
- 1.2 "Email Service" means the service described on the front cover
- 1.3 "Fax Service" means the service described on the front cover
- 1.4 "E-mail Magazine Service" means the service described on the front cover
- 1.5 "Subscriber" means the person subscribing or registering for a service
- 1.6 "TPL" means Tendering Publications Limited

Subscription Service, Rates and Charges

- 2.1 Subscriber will receive the service subscribed on the registration form for the subscription fee and charges set out for the first year of service.
- 2.2 Subscriber shall pay annually in advance the subscription rate established by TPL for the subscribed service and shall maintain a deposit account with TPL in an amount determined by TPL to cover the charges for forms or other documents provided by TPL that are not part of the subscribed service. TPL is under no obligation to provide the subscribed service if the subscription rate has not been paid or the deposit account is not being maintained.

Notice

- 3.1 Subscribers who change their mailing address, fax number, or E-mail address must advise TPL of the change in writing by first class mail, fax or email at the time of the change.

Disclaimer

- 4.1 The information provided to a subscriber is obtained from government or other sources. TPL relies on those sources to provide accurate and timely information. Accordingly, TPL assumes no responsibility for errors or omissions in, or the timeliness of, the information published or distributed by TPL. As a subscriber, you have agreed that TPL is not liable to a subscriber for any direct, indirect, incidental or consequential damages resulting from errors or omissions in, or the timeliness of, the information published or distributed by TPL.

Limitation on Liability

- 5.2 The liability of TPL to a subscriber for any reason, cause or matter is limited to the annual subscription fee for a subscribed service.
